providing physical comfort free from stress or anxiety,
producing feelings of ease or security

PLEASED TO MEET YOU

We're Crown International - a dutch based company that has been established more than 10 years ago. We are specialized in designing, producing and stocking OS&E products. Having had the pleasure of working with hoteliers and hotel chains in more than 60 countries, we understand the demand from a design as well as from a functional perspective.

Over the years our range has developed into a wide variety of must-haves. Our high quality PU leather items, elegant bathroom accessories and charismatic interior items are a perfect welcome asset to each room.

This brochure will give you an impression of our stock collection as well as bespoke possibilities.

Get inspired by our refined design, valuable materials and unique quality!

OUR VISION

In our fast-moving time, a hotel room is more and more getting a place for rest and relaxation. That's why hotel items do not only have to be functional but also individual and comfortable. We love (co-) creating contemporary products for hotels in EMEA region and are 100% dedicated to room OS&E.

Our own production lines, which secure quality as well as flexibility, are continuously extended. Direct logistic services from our own warehouse or factory ensures a fast and safe delivery.

Respecting the human as well as the enviromental values also is an important issue for us.

Let us be your partner in creating innovative hotel concepts and interiors!

and are CE, ROHS & FCC certificated.

CROWN JEWELS

Our design team can (co-)create beautiful products that do match 100% with the look and feel of the room. Materials we use are PU leather, wood, acrylic, resin and stainless steel.

Based on the requirements of the hotel we will come up with several proposals. After approval of the final proposal we will produce samples for the real look-and-feel. We will start mass production after the samples are approved.

We have had the pleasure to work with recommended international hotels and we are looking forward working on your bespoke projects as well.

FAIRMONT BARCELONA

For the refurbishment of the Fairmont Barcelona we have developed several room accessories.

To smoothly integrate the accessories into the new room interiors, the finishes are either Smooth Grey PU Leather or Metallic Gold (in combination with Stingray Cool Grey).

INTERCONTINENTAL O2

We were selected to deliver custom made room accessories as well as a selection of our stock items for the Intercontinental O2 Arena Hotel in London.

We have designed and produced room accessories in Metallic Champagne.

PRODUCTION

Production is more than manufacturing; it encompasses everything from design, to consumer behaviour and end-of-use cycles. From intensive dialog with interieur designers and hotels we develop continuously new or customized products.

Our own production lines have the most modern and state of art PU leather process production equipment to produce different varieties like Pebble and Stingray. Experienced and sophisticated workers make up samples and manufacture high-quality samples out of valuable raw material.

QUALITY

To us quality means, our customers can always trust in the reliability, durability and safety of all our products. That is what our customers expect and appreciate. This claim to quality is a value that leads us through everything we do and which we like to preserve through daily commitment.

Product safety the use of premium raw materials is on the front burner.

All our electrical products meet the highest international safety standards and are controlled by reputable instances such as DEKRA and are CE and GS certified.

ECOLOGY

Responsible behavior against the environment is of huge significance for us. That's why protection of the environment and our production go hand in hand at our place.

We take a stand for applied raw materials and adopt several measures to save resources.

As a result we do not only spare nature but also benefit a good standard of life for the employees at all locations and ensure a good environment for us and our children.

WAREHOUSE & LOGISTICS

The finished product is stored, moved and delivered from our central warehouse. We deliver products that have been ordered at the right time and place in a cost-effective way and to the satisfaction of our customers. Our warehouse, dispatch, distribution, buyer logistics and fleet teams work together in order to meet our targets.

Our product warehouse measures nearly 1100 m², providing a total storage capacity of 880 pallets. In addition to serving production, distribution and sales, we also register and inventory this amount of product as well as safeguarding its quality and quantity.
