DIBBERN FINE BONE CHINA

The first private porcelain manufacturer was founded in Hohenberg, Bavaria, in 1814. DIBBERN reopened the works in 1997 continuing centuries of tradition to the highest standards.

DIBBERN Fine Bone China represents the ultimate achievement in pottery craftsmanship and technology. Our designers are very considerate in designing the DIBBERN Fine Bone China with great subtlety; it accentuates the distinctive features of the material. With its transparency, smoothness and soft glow Fine Bone China is among the most attractive porcelains – a feature that is enhanced by its exceptional durability. An unleaded glaze is used for all DIBBERN Fine Bone China products.

With all these features DIBBERN Fine Bone China continues to convince high-class gourmets and the international premium gastronomy. DIBBERN Fine Bone China won several international design awards for outstanding innovative design. Production is carried out exclusively at our own works in Germany.

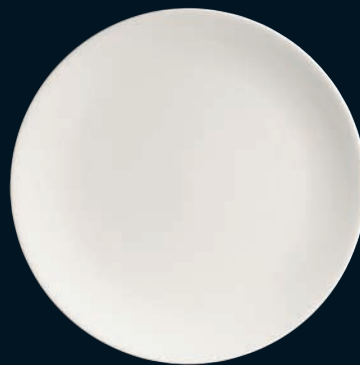

The image features three white ceramic plates of varying sizes, overlapping each other against a dark, solid background. The plates are arranged in a diagonal pattern from the top-left towards the bottom-right. The largest plate is on the right, partially overlapping a medium-sized plate in the center, which in turn overlaps a smaller plate on the left. The lighting is soft, highlighting the smooth, glossy texture of the ceramic and creating subtle shadows and highlights along the edges of the plates. The overall composition is clean and minimalist.
