Index & Reference List

Welcome to Andy Mannhart AG

Head Office in Küsnacht, Switzerland

Dear Customer,

We present with great pleasure **Volume 12** (2016/2017) which is the 12th edition of catalogues produced by Andy Mannhart AG since its founding 32 years ago. Every new edition has positively evolved based on feedbacks and experiences. We have set a high standard for this issue and hope that it meets or even exceeds your expectations.

We sincerely welcome your feedback.

Catalogue highlights:

Chapter 1 The Cookware lines have expanded and are now more comprehensive.

Chapter 3 The improved display and extended ranges of the Knife section offer now many more choices.

Chapter 8 Various changes and additions have been made within the Equipment chapter.

Look out for the **new** labels on outstanding innovations like Robot Cook (page 8.05), Pacojet 2 (page 8.14), Hold-o-mat 411 (page 8.36) and many more.

Besides the printed copy, this catalogue is also available on our website as an E-Catalogue and is updated every three months. Please combine the detailed information from both this catalogue and our digital tools such as our website (with downloads and blog options) and our social media channels for your decision making.

Kindly enjoy reading and browsing!

With culinary regards,

Daniel Sutter, CEO

DESIGN THE DIFFERENCE

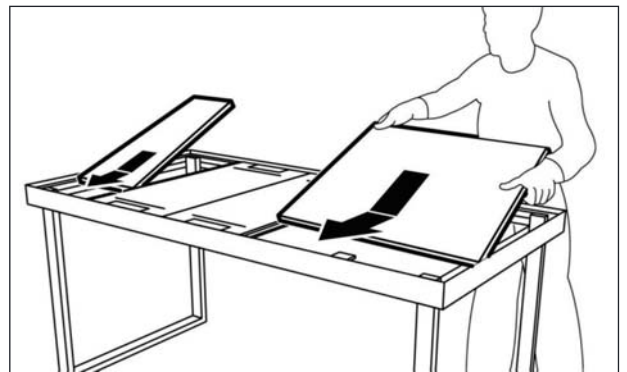

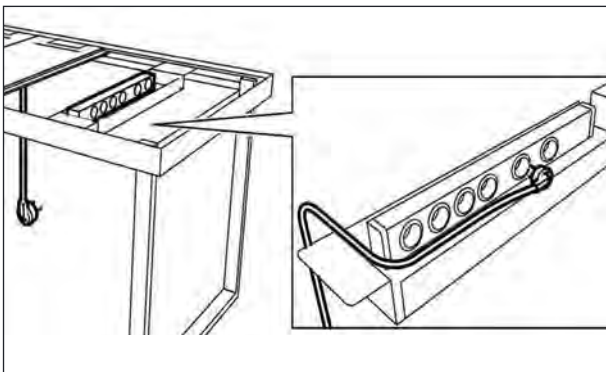

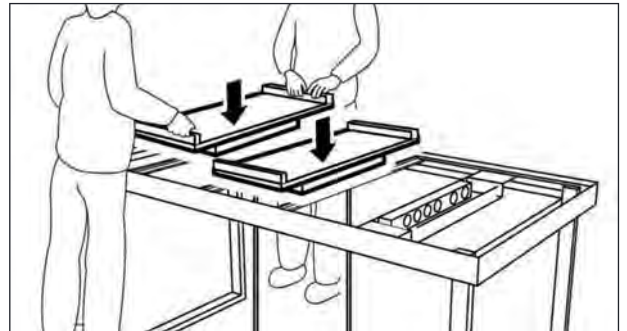

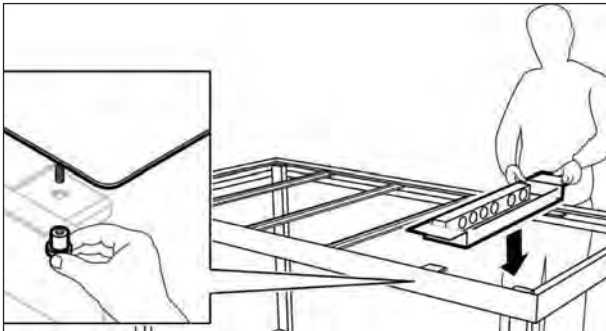

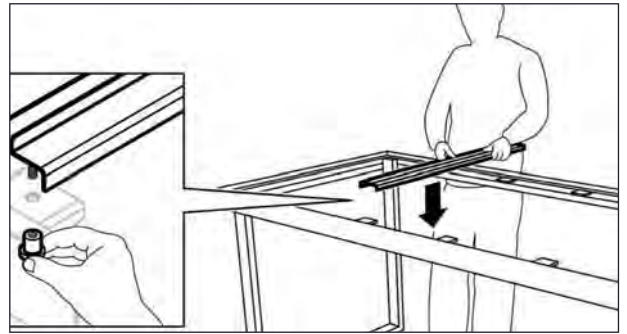

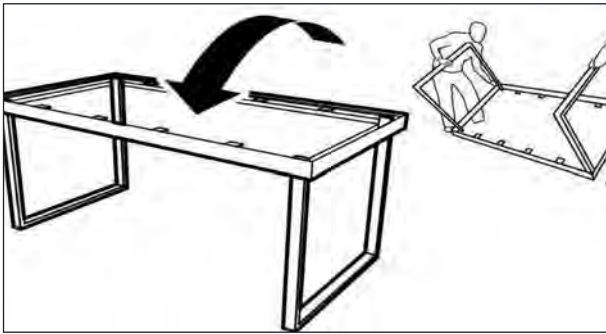

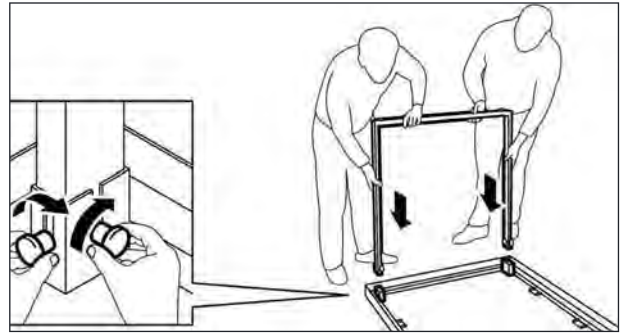

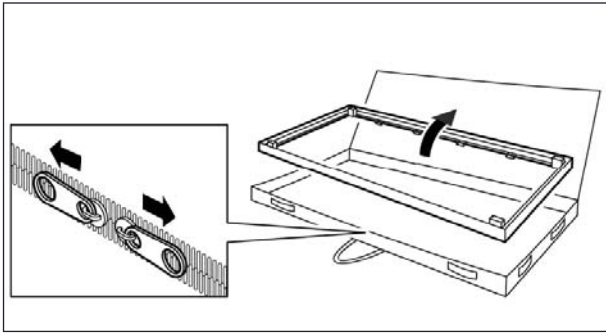

modular furniture

THE BAUKASTEN

The front-of-house kitchen. The first standardized 'Baukasten' for individual F&B concepts. livecookintable makes it possible to meet most sophisticated customer requirements with minimal effort. Our 'Baukasten' enables you to put together an infinite number of applicable solutions by using just a few standardized components with full Gastronorm compatibility. Our technical furniture offers the possibility to assemble and interchange an infinite number of product variants from the smallest possible number of standardized components. In contrast to this, modular systems only offer to line up a range of modules. livecookintable assembly, dismantling, rebuilding, modification, adaption and extension are ensured in the long run with minimal effort

Design becomes a kitchen lab. Norbert Fischbach comes from cooking to design. He is no stranger when it comes to dealing with food professionally. In his early career he continued the family tradition as a Pastry Chef in Michelin Stars awarded kitchens. Simone Heckmann who comes from Design and Architecture to cooking, brings in her well founded training and her experience as a designer. Product design and room planning are her core competences. The Team of MEC2 is livecookintable, together with our distributors and our manufacturers in Germany and the European Union. They all love what they do!

Catalogue

Video Clip

livecookintable® modular system The Baukasten - Made in Germany

Unique selling points: 18 good reasons

- 01 Highest value for money! Up to 50% less livecookintable units needed as against the competitors while ensuring the same pax capacity.
- 02 The table design provides the widest possible variety of uses.
- 03 The unique 'Baukasten' enables you to create all F&B concepts out of one single system.
- 04 livecookintable designs the room!
A contract furniture with cooking function, not just a buffet or a cooking station.
- 05 Levelling the heights: Perfect work and presentation level.
- 06 We are technical buffet furniture designers with its own device engineering.
- 07 Specially designed equipment, designed exclusively for livecookintable and extremely flat built.
- 08 The 2 in 1 principle: two functions in one device to reduce the number of devices.
- 09 Free positioning in the system without restrictions, always oriented to the daily needs.
- 10 Our 360° food logistic concept significantly increases the pax capacity per hour per table.
- 11 All devices and table segments are Gastro norm-sized. Only one system for back-of-house and front-of-house.
- 12 Maximum storage space for mise en place under the tables. Plenty of space for hot and cold cars and shelves.
- 13 Intuitive user interface, no installation service needed, no tools required.
- 14 Smallest possible packaging, unique storage and transport logistics through bags and wheeled cases.
- 15 Easy change of all decors for all surfaces, can be updated at any time at very reasonable prices.
- 16 Most efficient, autonomous air cleaning in the market. 5 years maintenance free. Inhouse filter change not requiring professional service.
- 17 No expensive services: Easy in-house care, maintenance and cleaning.
- 18 The average number of warranty cases is between 1% and 1‰ only.

- 01 Porcelain shelf
- 02 Coffee'n Tea station
- 03 Bread'n Butter station
- 04 Condiment, vinegar, oil, herbs display
- 05 Carving station
- 06 Slicer display
- 07 Pasta cooker display

‘Baukasten’ solution versus bespoke design

‘Take it and keep it as it is’ versus ‘Take it and adjust it’. The market is still dominated by customized solutions. A customized solution, that serves the needs of today for a certain concept of today, for a particular room and for a specific food concept. But what about tomorrow, what about the coming years?

- 01 First the food concepts change. livecookintable can be adapted without effort.
- 02 New chef, new ideas! With the livecookintable ‘Baukasten’ new ideas can easily be implemented.
- 03 Guests’ behaviour makes changes necessary! livecookintable can be adjusted to the requirements.
- 04 Required space changes! livecookintable always provides flexibility to provide a new room situation
- 05 Competition is changing. New F&B concepts can easily be implemented using an adjusted livecookintable setup.
- 06 Surfaces and room colors are renewed. The livecookintable decors are easy to change at minimized costs, without any tool or installation team.

livecookintable ‘Baukasten’ is always adapts to the current needs.

It is only livecookintable offering a full ‘Take it and adjust it’ solution.

Brennwagen

Brennwagen - Forging a Legend

Formula 1™ racing meets BBQ innovation – and a passion for culinary excellence gets a new name: Brennwagen. Brennwagen lives up to exacting standards and the highest expectations for mobile outdoor catering. In design. In technology. In sheer power. Enough to fire up the real passion of any BBQ connoisseur.

Florian Wagner – Chief Engineer at Brennwagen
 An idea born on the race track. Where Formula 1™ engineer Florian Wagner lived his Professional passion for motorsports. A passion for barbecues took him from petrol fumes to smoking charcoal. To Brennwagen. The end result: Record performance. In every BBQ challenge. The Brennwagen GT series gets BBQ fans and design aficionados fired up. Every time.

Buffet-Tables to keep food warm or cold

nesting function | height adjustable | all tables on wheels

mobile buffet solutions

VENTA by Büchin Design developed an elegant buffet furniture range for the high demands of the hotel industry and for exclusive events. It is equipped with a range of technical features to keep dishes hot or cold.

We offer exclusive buffet tables with integrated devices, which are installed below the table-top and are almost invisible. The need for a clean and clear table surface is not affected by this functionality.

Buffet-Tables to keep food warm or cold

modular system | trolleys for storage | variations of colour

The modular buffet table system STAGE_80 can be assembled and disassembled in just a few easy steps, without the need for any tools.

Item No.: 012674

height adjustable: 920, 1000, 1080 mm
weight: 75 kg
features: 4x field induction (4x 750 W, 230V,
50 Hz

The new generation of keeping food warm on a buffet table. A wonderful and decorative surface to place the pots and pans directly on the table-top. Only a thin silicone mat has to be placed between the table surface and the pot. This mat avoid scartches and the movement of the pot. Additionally the mat helps to keep the surface protected in case of overheating the pot.
*silicone mat included

Silicone mat No.: 030497
*extra mat can be

Induction Undercounter Solutions

InductWarm® - The elegant buffet solution.

Simple to use, in premium design.

stone

glass

wood

Ease of use

Premium design

Energy efficiency

Safety

Food quality

Temperature control

Customized Built-in and Undercounter Induction Technology

Your advantages

- Freedom of surface selection: **stone, wood** or **glass**
- **Seamless high technology**
- **Multifunctional**: use it as banquet, conference or serving table
- Easy-to-clean counter due to **flush mount integration**
- **Compatible** with any induction compatible tableware
- **Safety**: Heats only the metal coated dishes and not the counter tops
- **Easy operation** with front mounted control panel

InductWarm® 130 Built-in and Undercounter new

- Highest level of **individualization**: buffet tops from wood, stone, glass can be used, available in different colors and sizes
- **Multifunctionality**: almost invisible the InductWarm®130 can be mounted under different tops (10 - 13 mm) and therefore it can be used for various occasions: as a conference table, as serving table etc.
- **Design**: if the dishes are removed from the induction surface, you get an elegant, smooth top; with wood even jointless top
- Highest **energy efficiency** due to its ability to run up to three devices with only one single 230V/10A or 16A plug
- Especially **intuitive and immediate operation** with the integrated touch panel, external infrared remote control or control unit
- **All-round safety**: the InductWarm® technology heats the metal-coated dish and not the counter surface (only reflection heat is possible)
- **Best ventilation** due to an integral cooling fan on the device bottom

InductWarm® 200 Built-in new

- **Field induction** : Six induction coils with three individually adjustable warming zones which allow highest level of flexibility regarding the sizes of the used dishes
- **Modern design** with the combination of high-grade steel and black glass-ceramic top, usable with matching porcelain
- 1 device only; **easy plug & play**, no putting together from single components needed
- Highest **energy efficiency** thanks to induction technology offering 4 different temperature levels, using just 1.0kW
- **Intelligent temperature control**; the device measures the temperature within the pot (not directly at the induction field) and adapts constantly the energy given in. A constant temperature level is guaranteed, according to the selected temperature level
- Especially **intuitive and immediate operation** with the integrated touch panel with locking function and remote control alternatively
- **Maximum usability** at all areas - from installation to cleaning and to transport

ANDY MANNHART RAINBOW COLLECTION PANS

- Attractive multifunctional coloured pans available in the rainbow colours: orange, blue, green, yellow and white
- Made of 3-ply stainless steel material, suitable for electric, gas, ceran and induction
- Perfect heat transmission
- Cook and present your food in the same pan
- Lid specially modified, it can be stored on top or on the side of the pan, equipped with a steam-release
- Special paint, heat-resistant (Whitford Technology), please handle with care
- Do not clean with hard sponge, use soft detergent

HALOGEN

Some are also suitable for induction and are marked with the induction sign:

induction

Stainless steel

ANDY MANNHART STANDARD

This line is made of 18/10 stainless steel and specially designed to achieve the best performance in professional cooking. Excellent resistance to corrosion. The special impact welding system of the sandwich base offers maximum robustness. The inside radius allows easy and fast cleaning, achieving NSF certification. The majority of the Andy Mannhart Standard Line are certified class induction, guaranteeing the best performance on induction.

Stainless steel

ANDY MANNHART AM COLLECTION

- Ideal for professional and intensive use in restaurants and for front cooking
- Special stainless steel with impact bonded capsuled bottom for uniform heating which results in energy saving
- Food cooks faster and stays longer hot after cooking
- Handles welded with special technique. So does not heat up during cooking
- Suitable for induction as well as for all other heating modes

VULCANO CUT RESIST CLASSIC

The pan with the shield: Sharp-edged spatula, tongs gripping meat, robust sponges - a non-stick frying pan must put away a lot. The Vulcano Cut Resist Classic is particularly tough. This is due to the clever construction: A network slightly elevated stainless steel webs lies like a protective shield over the non-stick coating. So the pan spared drastic experiences, it is also after years of use resistant to scratching and abrasion.

Thermoplates

Special plates for cooking and refrigeration - from storage to preparation to production to serving without transferring food.

Thermoplates are made of SWISS-PLY multi-layer material, for energy efficient cooking, grilling and cooling with an extremely high thermal conductivity and an optimum energy transfer to food. Thermoplates are hygienic, dishwasher-safe, rustproof and suitable for all energy sources temperature range from -20°C to +250°C.

All of them are also available with drop handles.

Coated thermoplates should not be used for open-flame cooking.

Thermoplates with a material thickness of 4.0mm for grilling, frying, braising, preparing sauces, fast frying as well as keeping cool.

Stainless steel

GN pans are one of the most used equipment in the hotel kitchens. Therefore it is of utmost importance that the containers are of high quality matching the EN-standards. Andy Mannhart GN pans are made of 18/10 stainless steel, 0.8mm material thickness.

KNIVES & BOARDS

Cutting & Carving Tools, Butchery Equipment

3

Stainless steel

HACCP (Hazard Analysis Critical Control Points) is a preventive system - a risk management that provides safety for food and consumers. Through its coloured handles, the scope of application for each knife will be visible. The international colour coding concept for the risk management looks as follows:

Red	raw meat	Yellow	poultry / cooked meat	Green	vegetable and fruits
Brown	cooked meat	Blue	fish	White	pastry / bakery

ANDY MANNHART KNIVES WITH COLOURED HANDLE

The slip resistant nylon handles can be sterilised at temperatures of up to max. 150° Celsius.

Stainless steel

HACCP (Hazard Analysis Critical Control Points) is a preventive system - a risk management that provides safety for food and consumers. Through to its coloured handles, the scope of application for each knife will be visible. The international colour coding concept for the risk management looks as follows:

Red	raw meat	Yellow	poultry / cooked meat	Green	vegetable and fruits
Brown	cooked meat	Blue	fish	White	pastry / bakery

KNIVES WITH COLOURED HANDLE

The slip resistant nylon handles can be sterilised at temperatures of up to max. 150° Celsius.

Where food is being prepared, particular attention needs to be paid to safety and hygiene. The HACCP range was extended by adding a knife with special light violet handles for preparing vegan, allergen free and halal dishes, thereby responding to current developments in the food industry.

- High-quality nylon handle without any additives that could be derived from tallow/lard
- The colour supports and complements your hygiene concept
- Ideal for vegan, allergen free and halal gastronomy

The brand Zieher stands for innovative design, both in the tabletop- and in the buffet-section.
At this, the main target audience are hotels and top class restaurants and also the innovative gastronomy where dedicated profi-chefs place new trends.

Products made out of different materials such as glass, stainless steel, slate, porcelain etc. and the combination of materials give birth to high-quality and modern tableware and buffet-systems.

011401	Glass washer for separate cleaning and rinsing in one sink, suitable for all normal glass sizes	31.0x19.0x34.0
010400	<p>Conveyorised metal burnisher Goliath 2000 type B</p> <p>A large number of small balls made of hardened and highly polished steel continuously roll in a container filled with cold soapwater. The products to be polished are inserted into the steel balls mass for a few minutes. The balls smoothen and roll the scratched surface, condense and harden the metal surface by the combined pressure of the balls. This method permits the original sparkling shine to be maintained or regained by a mechanical mean. The harder and "closed" surface is more resistant to wear and oxidation.</p> <p>The insertion and removal of the products is done non-stop.</p> <p>Approx. 150 pcs of cutlery can be polished per filling in approx. 3 minutes, or a number of other products, such as sauce boats, bowls, casseroles, wine coolers and platters, 1x230V/50-60Hz, 330W</p> <p>Following material can be polished: solid silver, silver-/gold-plated, copper, brass, stainless steel, aluminium, high gloss pewter and bronze.</p> <p>Complete with:</p> <ul style="list-style-type: none"> - 70kg carbon steel balls - 1 compartment device - 5 knife polishing device

ALUMINIUM AND POLYETHYLENE MODULAR SHELVING

Anticorrosive – Rust-resistant shelving. Manufactured with special anodised aluminium frame providing cold and heat resistance from -30°C to +75°C.

Support for grossbars

Levelling feet with hidden thread, for gradient floor

Possibility to adapt wheels
Ø=12.5cm

POLYETHYLENE RACK/SHELVES, SUITABLE FOR FOODSTUFF USE.

EASY AND QUICK ASSEMBLY – Very easy and quick assembly. No tools required.

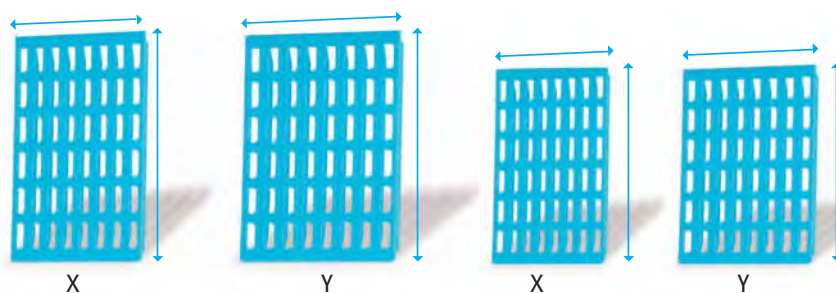

ROBUSTNESS AND RESISTANCE – Very strong and resistant with a load capacity per shelf of 120.0kg and 300.0kg total shelving. Rack/shelves with a special design providing robustness to itself and providing also a very strong and resistant support on the frame.

GASTRONORM COMPATIBILITY – Adapted to GN sizes 1/1 and 2/3. It is possible to put the rack/shelves or directly the 1/1 and 2/3 GN containers, stainless steel or polycarbonate (compatible with most of gastronorm pans in the market).

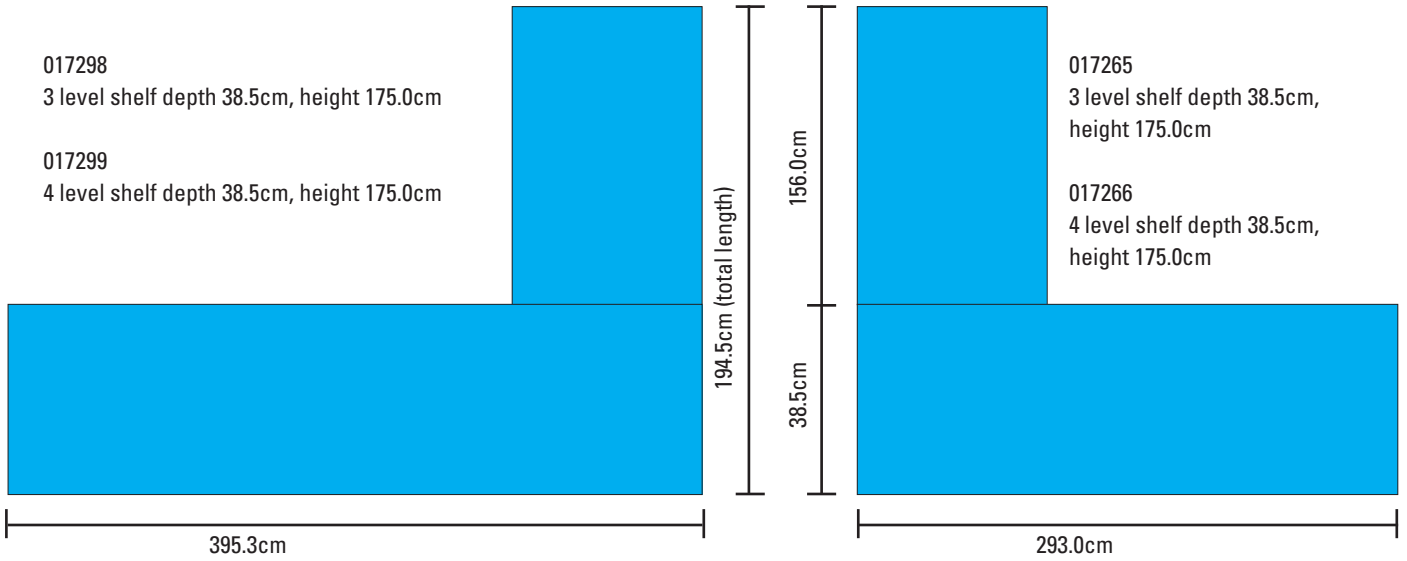

GN 1/1 (55.5cm)

GN 2/3 (38.5cm)

Combining rack shelves among the same group (X/Y) allows to personalize the length of each shelf

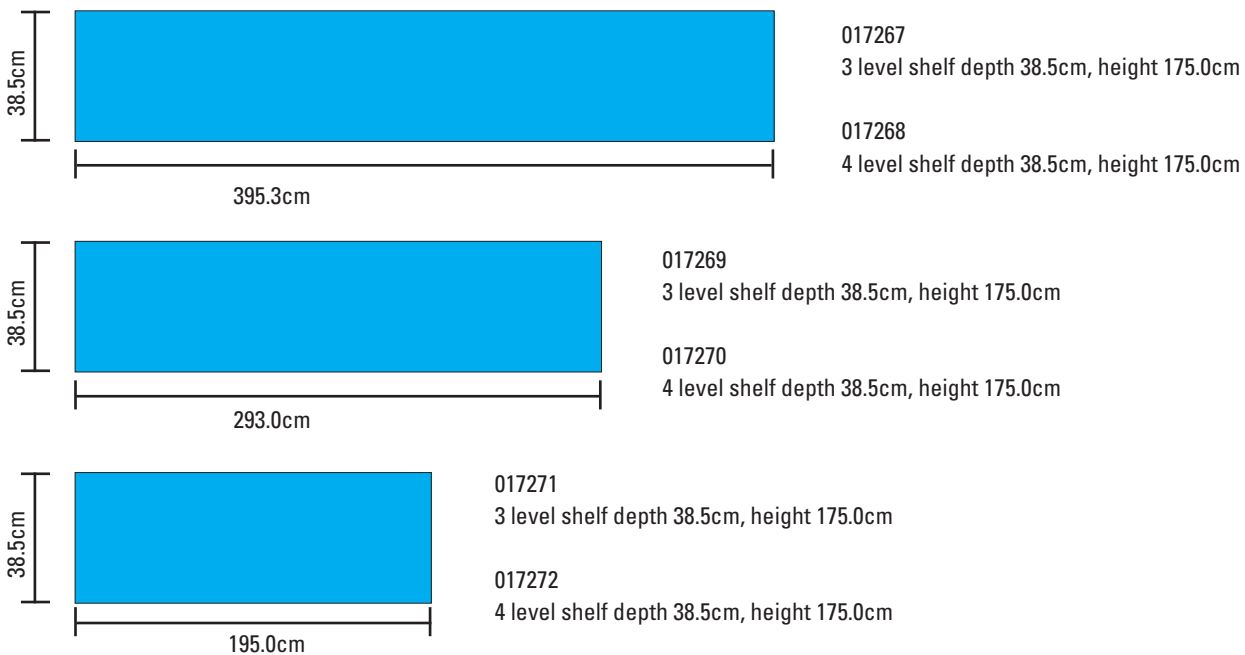

Angled shelves: depth 38.5cm adaptable to GN containers 2/3

Angle can be attached on each side of the shelf:

Straight shelves:

Also available in GN 1/1. Please contact us to help you to set up your personalized shelving.

Silform

BREAD BAKING SHEETS

Silform, a combination of knitted glass fabric and food grade silicone. Aerated mat. Formed to specific shapes of bread.

Uses: Proofing and baking various small breads on baking sheets

Advantage: Even shape of the baked product

		Dim in cm
023650	Silform 60.0x40.0cm, 18 hot dogs - éclairs	15.5x4.1x2.5
023651	Silform 60.0x40.0cm, 8 sandwich moulds	25.9x6.4x3.0

		Ø cm	H in cm

023653	Silform 60.0x40.0cm, 6 pizzas	16.6	1.2

Silpat

PASTRY MAT

A combination of woven fibre glass and food grade silicone. Non-perforated material with a smooth side on which the products to bake or freeze will be placed, and a less smooth reversed side which will prevent the Silpat to slip from the tray.

Uses: Replaces silicone paper to bake or freeze fluid or soft pastry doughs on baking sheets (meringue, cookies, chou paste, croissants, sugarcraft)

Advantages: Lasting, non-stick, hygienic

		GN size	Dim in cm
023660	Pastry sheet/baking mat SILPAT		60.0x40.0
023661	Pastry sheet/baking mat SILPAT	2/1	65.0x53.0
023662	Pastry sheet/baking mat SILPAT	1/1	53.0x32.5

Silpain

BREAD BAKING MAT

A combination of woven fibre glass and food grade silicones. Open mesh.

Uses: Proving and baking bread of all shapes and sizes, especially effective for baking frozen dough

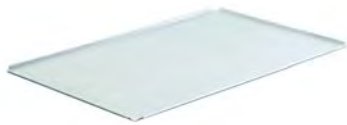

Advantages: Can replace the recoating of a flat metallic tray

		GN size	Dim in cm
023671	Bread baking mat SILPAIN	2/1	65.0x53.0
023670	Bread baking mat SILPAIN		60.0x40.0

- Alusteel:** Is a special strong steel plate with an aluminium coating on both sides. The sheet surface is non-rusting.
- Peraluman:** Special aluminium alloy. Absolutely non-rusting, therefore suitable for storing goods in refrigerator. Very high quality sheet
- Aluminium:** Baking sheet with good baking results and non-stick performance. Non-rusting - but tend to oxidise
- Non-stick:** Baking sheet with good baking results and non-stick performance. Non-rusting
- Blue steel:** The sheets need to be greased before baking. Tend to rust easily - must be kept dry and oiled
- Black steel:** Advised in combination with non-stick mats. Tend to rust very easily - must be kept dry and oiled

MOBILE THERMOPORTS

Completely made of rustproof s/s, highly suitable for transporting hot or cold food or for use as rolling storage stations in the kitchen and serving area. The interior is absolutely tightly welded and corresponds to the hygiene version H3 (except 1600 DU: H2), with rounded corners (water-jet resistant). Suitable for GN containers and wire shelves GN 1/1

HEATED VERSION (=U)

Air circulation heating, IP X5 protection, max. achievable temperature 95°C, rated voltage: 230V/50-60Hz, connected load 0.432kW

REFRIGERATED VERSION (=K)

Protection glass IP X3, cooling range 5°C to 8°C (when door is closed), refrigeration output 180W at evap. temperature -10°C, rated voltage: 230V/50-60Hz, connected load 0.170kW

ANLIKER-MACHINES

The vast selection of more than 30 discs provides ample scope for creative fruit and vegetable processing. The cutting discs can be changed in a flash. The ease of use starts with filling as there is a cutting surface/-feed nozzle inclined by -45°C , which enhances safety during operation.

Sous-vide is cooking “under vacuum”, fresh food such as fish, meat or vegetables are vacuum-packed and then cooked in precise temperature-controlled water.

Cooking Sous-vide yields healthy and nutritious dishes with high-quality taste, preserving aroma, flavour and vitamins. Freshness, colour and appearance remain unaltered until consumption, with a minimal shrinkage of the product.

Advantages:

- Consistent results
- Minimal shrinkage
- Extended shelf life without loss of quality
- Concentration of flavour
- Reproducible and precise
- Low energy cost
- Stress-free and efficient cooking
- Overcooking virtually impossible

PEARL

- guarantees a temperature stability of $\pm 0.03^{\circ}\text{C}$
- including a safety protection grid and strong circulating pump
- integrated timer for easy monitoring of the remaining cooking time
- vapour barrier protection (warning system for low water level)
- splash water protection

DIAMOND

Diamond has all features of Pearl, but additional innovative functions:

- pre-programmed memory keys for meat, fish, and vegetables
- straightforward HACCP data logging and calibration functions
- can be used with the core temperature sensor, with alarm when core temperature has been reached
- timers can be started separately from each other, with visual and acoustic signal

073000 Smoking gun, is a handheld food smoker, one-piece, removable anodized aluminium smoking chamber, heavy-duty metal blower fan - will not melt when heated, efficient, low-noise motor, excellent for finishing products that are cooked Sous-Vide or other methods where food is not normally directly exposed to fire or smoke, runs on 4 AA batteries, includes two sample jars of hickory and applewood smoking sawdust

073001 Anti-Griddle with quick freeze function, this unique innovation opens a new dimension in freezing, quickly freezes sauces and purees into solid, unique forms or freezes just the outer surfaces while maintaining a creamy center, -34°C surface temperature ensures instantaneous results, easy-to-clean work surface, 230V/50Hz, 0.86kW

073003 The Sonicprep™ Ultrasonic homogenizer offers a wide range of techniques, such as extraction, infusion, homogenization, emulsification, suspension, degassing and rapid barrel-aging, features include, Ultrasonic processor with 0.4kW power output control to match power to the application, continuous or timed (0-15 minutes) operation, pulsed mode to minimize heat generation, broad process range from 1 ml to over 500 ml per sample, supplied with a standard titanium probe and a sound box, 230V/50-60Hz

420001 Shock-Freezer, air-cooling, s/s, cap. 5x 1/1 GN or 5x 60.0x40.0cm, with rapid cooling cycle 70°C to 3°C, shock freezing performance +70°C to -18°C, 230V/50Hz, 1.2kW

080500 Hotmix multifunction machine, chopping, pureeing, liquidizing, blending and mixing, heating system 25°C to 130°C, body made of s/s, pulse and turbo function, up to 300 recipes storable, LCD display, bowl capacity 2.0ltr, 12 speeds, 120-12500rpm, 230V/50Hz, 1.5kW

new

025839 Hotmix cook and chill machine, cook and chill in 2 separated and independent bowls, max. 4 working hours, 26 speeds, left bowl: chill and freeze up to -24°C, 8000rpm, right bowl: cook 24°C to 190°C, 12500rpm the degree-by-degree temperature control and 350 pre-stored recipes on two SD cards guarantee constant, standardized and optimal results, 230V/50Hz, 4.35kW

"SWISS ORIGINAL - THE NEW HOLD-O-MAT 411"

LIGHTEN YOUR WORK LOAD

- Store quick fried food and breaded dishes until serving in the Hold-o-mat. (Everything is always fresh and crispy because of the dehumidifier).
- Quick searing is sufficient, the Hold-o-mat gently simmers the food leaving your grill free to prepare more dishes.

MAKE MORE EFFICIENT USE OF YOUR COMBI-STEAMER

- The Hold-o-mat provides a <cook and hold> capability.
- Meat is kept warm in the Hold-o-mat and improves in quality.

ALSO SUITABLE FOR PARTIES AND OUTSIDE CATERING

- Food ready-prepared in the kitchen can be transported in the Hold-o-mat and served warm.
- The fold-out handles ensure optimum ease of carrying in quality.

CALM ORDERLINESS AT THE SERVING POINT

- From the Hold-o-mat directly to the guest.
- Continuously prepare set menus and...let's go!

CERAN COOKING UNIT

Large glass ceramic surface with two heated cooking zones. No special pans required. Continuously variable regulation, starts cooking immediately and is highly efficient. Temperature can be separately regulated at front and back. Outside dimension 38.0x61.5x21.0cm

table	built-in	
073732	073733	Ceran cooking unit, 3x380V/50-60Hz, 16A 2x2.5kW

INDUCTION WOK UNIT

A large cuvette (bowl) for induction capable wok pans. The cooking zone can be regulated in a range from 0.15 to 3.5/5.0kW. Electronic sauce pan recognition with optical display for non-suitable pans, outside dimension 38.0x61.5x21.0cm

ECO table	built-in	
073540	073541	Induction wok unit 230V/50-60Hz, 16A, 3.5kW
073769		Induction wok s/s Ø 36.0cm

INDUCTION COOKING UNIT

One cooking zone for induction capable pans with a base diameter from 13.0 to 26.0cm. Regulation in a range from 0.15 to 3.5/5.0kW. Electronic sauce pan recognition, with optical display for non-suitable pans. Outside dimension 38.0x60.0x21.0cm

ECO table	built-in	
073542	073543	Induction cooking unit 230V/50-60Hz, 16A, 3.5kW

INDUCTION COOKING UNIT

Two cooking zones for induction capable pans with a base diameter from 13.0 to 26.0cm. Regulation in a range from 0.15 to 3.5/5.0kW. Electronic sauce pan recognition, with optical display for non-suitable pans. Outside dimension 38.0x60.0x21.0cm

ECO table	built-in	
073744	073745	Induction cooking unit 3x380V/50-60Hz, 16A, 2x3.5kW

PASTA COOKER

Directly heated deep-drawn inner container. Thermostatic temperature regulation. With drainage valve. Suitable for use with round or angular pasta baskets, as well as for perforated GN-containers. Up to 80 portions of ready-to-cook pasta/h. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073514	073513	Pasta cooker, 3x380V/50-60Hz, 16A, 6.0kW
073750		Adapting lid for pasta cooker for 3 round baskets and 3 square basket
073751		Adapting lid for pasta cooker for 6 round baskets
073752		Adapting lid for pasta cooker for 6 square baskets
073753		Pasta basket round s/s
073754		Pasta basket square s/s
073755		Pasta basket large square s/s (to be used without adapting lid)

BAIN-MARIE

Directly heated deep-drawn inner container. Thermostatic temperature regulation. With drainage valve. Suitable for GN containers 1/1 with max. depth of 15.0cm. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073516	073517	Bain-marie 230V/50-60Hz, 10A, 1.8kW
073860		Adapting GN dividing bar 32.5cm

DEEP FRYER

Temperature regulation between 100°C to 190°C. Frying quantities: up to 40 portions of french fries/h. Oil container deep-drawn in one piece with the work top. Heating element can be tilted out, incl. frying basket and lid. Outside dimension 38.0x61.5x21.0cm

table	built-in	
073518	073519	Deep fryer cap. 6.0ltr, 3x380V/50-60Hz, 10A, 5.8kW
029095		Additional deep frying basket

SILOFRIT

A system for keeping food hot, with top and bottom temperature regulation. 17.0cm deep-drawn container with perforated sheet metal insert tray makes cleaning as easy as could be wished for. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073522	073523	Silofrit Chip scuttle 230V/50-60Hz, 10A, 1.0kW

GRIDDLE PLATE SINGLE

Smooth griddle surface, made of special steel, with seamless transition to the internal housing. Inbuilt collection basin in the cold zone area for fat runoff. Thermostatic temperature regulation up to 250°C. Outside dimension 38.0x60.0x21.0cm

table	built-in	
073720	073721	Griddle plate single 3x380V/50-60Hz, 10A, 4.0kW
073766		Removable splash guard s/s

GRIDDLE PLATE DOUBLE

Smooth griddle surface, made of special steel, with seamless transition to the internal housing. Inbuilt collection basin in the cold zone for fat runoff. Thermostatic temperature regulation (left and right) up to 250°C. Outside dimension 58.0x61.5x20.8/21.8cm

table	built-in	
073728	073729	Griddle plate double 3x380V/50-60Hz, 20A, 2x4.0kW
073767		Removable splash guard s/s

GRILL GRIDDLE PLATE, GRILLING SURFACE 33.0x50.0CM

Grooved grill surface and smooth griddle surface, made of special steel, with seamless transition to the internal housing. Inbuilt collection basin in the cold zone for fat runoff. Thermostatic temperature regulation (left and right) up to 250°C, outside dimension 58.0x61.5x20.8/21.8cm

table	built-in	
073724	073725	Grill griddle plate, 3x380V/50-60Hz, 20A, 2x4.0kW

COMBI GRIDDLE PLATE

Smooth griddle surface, made of special steel, with seamless transition to the internal housing. Runoff in the front griddle area with teflon closure and front drainage. Thermostatic temperature regulation up to 250°C. Outside dimension 38.0x61.5x20.8/21.8cm

built-in		
073749		Combi griddle plate 2x380V/50-60Hz, 16A, 4.0kW

TABLE TOP INDUCTION UNIT GRIDDLE LINE

- Strongly built
- Equipped with the latest RTCSmp technology. Rounded edges and a smooth surface made for effective, efficient cleaning. Temperature adjustment via stepless rotary control. 7-segment display of desired and current temperature.
- Patented realtime temperature control system for temperature controlled
- Frying with non-contact measurement and real time control specially developed induction griddle plate HPCR-inox treated surface
- temperature measurement, control and monitoring over the entire griddle surface
- Instant response to changes in temperature setting
- Electronic monitoring of the energy supply
- Temperature adjustment range: 50°C to 230°C
- Replacable grease filter cartridge
- Temperature regulator potentiometer 10kOhm and LCD display

FRONT COOKING CONCEPT (VARITHEK)

Varithek air-cleaning-system ACS (push and pull - extraction) mobile stainless steel unit for frontcooking with integrated suction system for smell, steam and fat free food preparation, with inseration niche for holding 2 Varithek-elements "V-1/1". Closed cupboard with 2 revision doors, fan motor, odour filter and integrated fat filter, switch panel with on/off switch and 4 sockets with covers (2x230V and 3x380V), 4 swivel casters with total brakes (Ø 8.0cm). Ready for connection with power cable 2m and CEE-plug (400V), rated voltage 3N AC 3x380V, 50-60Hz, connected load 11.0kW

		Dim in cm

VINOJET: THE TECHNICAL SOLUTION TO SERVE BOTTLE WINES AND CHAMPAGNE

- System: unsold wine in part-empty bottles will be preserved in perfect condition by electronic controlled vacuum.
- Unlimited number of bottles: the VinoJet is capable of preserving an unlimited number of bottles of wine.
- Running costs: the system simply plugs into the mains and a regulated CO2 supply (dual system only) and therefore incurs minimal costs.
- Safety: the vacuum/compressor pump is dry running (not oil-filled). This eliminates any problems associated with oil mists, smells or restrictions on siting.
- Operation temperature: 0°C to 40°C

Stool: (LxWxH): 380 x 410 x 865 mm
weight: 4.5 kg

The mobile bar – a design experience, with an exclusive, modern design, flexibility and versatility.

The established STAGE buffet system from the VENTA Interior range can be converted into a Mobile Bar. In place of the glass panels already part of all versions, we have added an additional table-top option to our portfolio. The compact panel is a heavy-duty plastic surface.

We use this panel both as a table-top and as a covering, which enables a mobile bar to be created from a STAGE buffet table in an instant. A front panel is attached to the existing metal adapters on the long side. The two side coverings are also attached to the front panels using special connectors and without the need for tools.

modular system | trolleys for storage | variations of colour

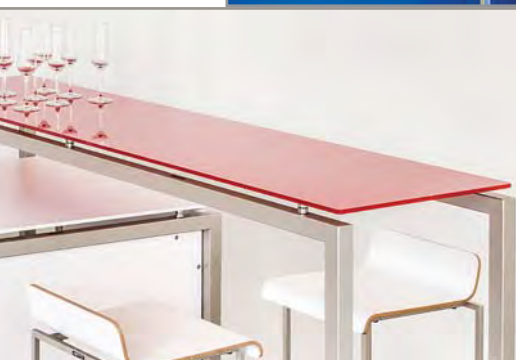

For prefunctional area we recommend our cocktail tables and stools.
